

I hope that you warmly fine and okay.

The purpose of writing this letter is to thank you and to appreciate you for every thing that you have ever done for me during my school time. I will never forget what you have done for me, including your support, love and kindness. May the God of heaven be with you wherever you go. My life here in Sakura is very nice and suitable, I have learnt alot of things from here in Sakura, including Some Japanese culture such as Japanese foods, festivals and the Japanese dressings. I like studying different subjects - like science subjects because I would like to be a nutritionist in my future life, where by I will be needed to study subjects such as Biology and chemistry. All in all my biggest pleasure is that one day we will meet together and you will continue to support me in my studies, please be with my love wherever you go

Your

Sincerely

daughter

Marygift

Emmanuel

Lots of love
