

Dear

It is my hope that you're doing well with your daily activities. Back to my side I am also fine in my studies.

The aim of this letter is to appreciate your kindness of supporting me in my studies. I would like you to know things which I like in this school. First favourite subject is Biology and Chemistry. Second my favourite sport games netball and football and my favourite food is rice and meat in this school. These are the things which I like. Thank you so much.

your faithful
mwadawa Athuman.
